CHALLENGE TASK

Straw Tower

Name:

Straw Tower

Challenge:

Work in teams to construct the tallest tower possible using only plastic drinking straws and tape. Explore stability, geometric shapes, and the importance of a strong base in engineering structures.

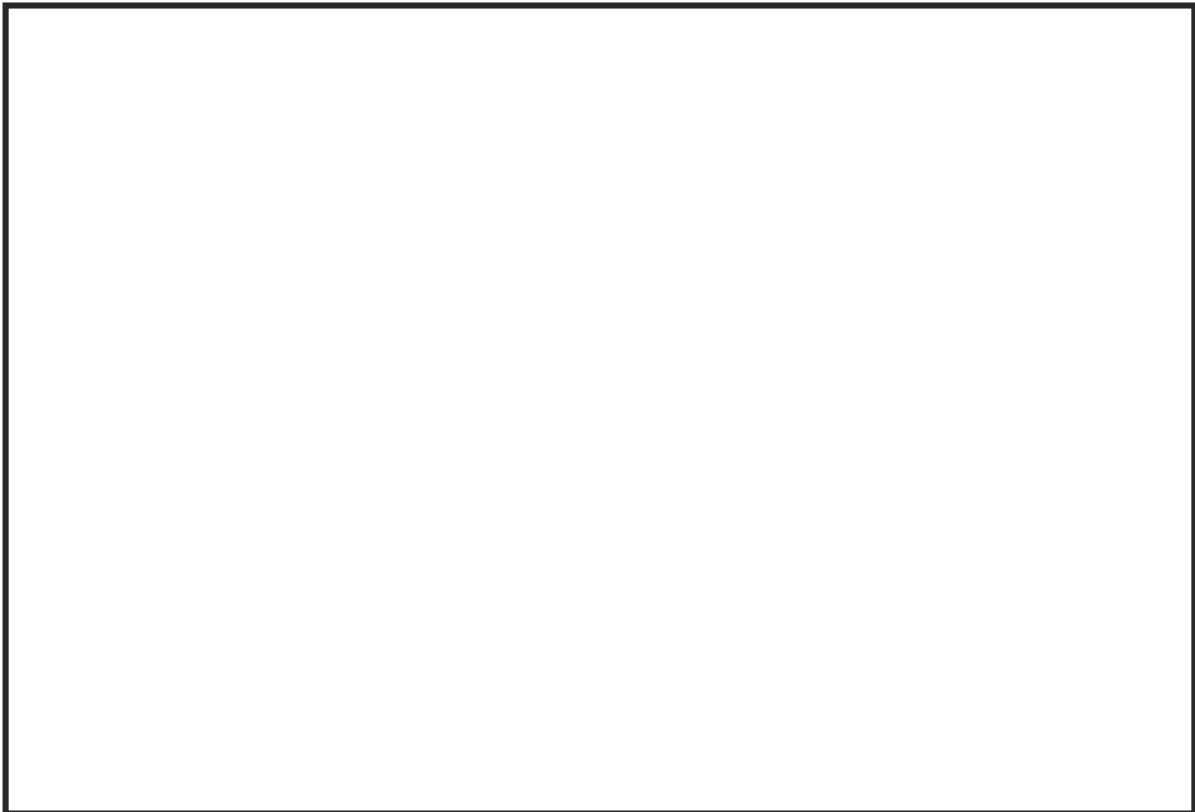

Brainstorm:

Straw Tower

Materials:

A large, empty rectangular box with a black border, intended for listing the materials needed for the straw tower project.

Labelled Diagram:

A large, empty rectangular box with a black border, intended for drawing a labelled diagram of the straw tower.
